Top contractor April 2008 Methodology

DND = Did not disclose. N/A = Not applicable. UNA = Unavailable

Ranking was based on information submitted in January and February. California Construction has ranked general contractors by 2007 revenue. Revenue figures were rounded up. Firms with corporate headquarters out of California were ranked by the amount of business their California offices did within the state. Firms based in California were also ranked based on work they did within the state. Unlike in previous years, there is no category breakdown of building categories. For more information or to ask about submitting for next year's list, contact Joe Florkowski at (626) 932-6171 or by e-mail at joe_florkowski@mcgraw-hill.com.
